Our competitive advantage

Global expertise led by Swiss standards

As global aviation demand grows, airlines and airports face increasing pressure to operate safely and efficiently. Swissport's presence at over 300 airports and partnerships with over 850 customers position us as a key enabler of the global aviation sector.

Safe, dependable performance for mission-critical services

In today's competitive aviation sector, our partners need efficient aviation services. From handling valuable cargo to managing expansive passenger hubs, every service we provide is delivered with predictable quality, robust safety measures, and high standards across all operations.

Trusted partnerships built for the long haul

Trust is critical in today's aviation industry. Leading airlines and air carriers depend on Swissport because we put our customers first, upholding their reputation in every location, delivering safe, high-class, tailor-made solutions for every customer we serve.
