WELCOME TO THE WORLD OF SWISSPORT

In the next few pages you will come to see why Swissport is the number 1 company in the world for ground handling and cargo operations.

Swissport is a diverse and dynamic organisation and I am immensely proud to be its CEO. Within our profile, we will demonstrate why Swissport continues to win accolades citing our people, our operations and our safety records as the best in the industry.

We operate in a challenging industry, where the only real constant is change. Therefore, it is imperative to our customers that Swissport be able to navigate these challenges on their behalf in order to keep their operations and their businesses running smoothly.

Our size does not inhibit our dexterity in this regard, and by utilising the solid formulas and hub concepts we have developed, we continue to be able to offer our customers this peace of mind.

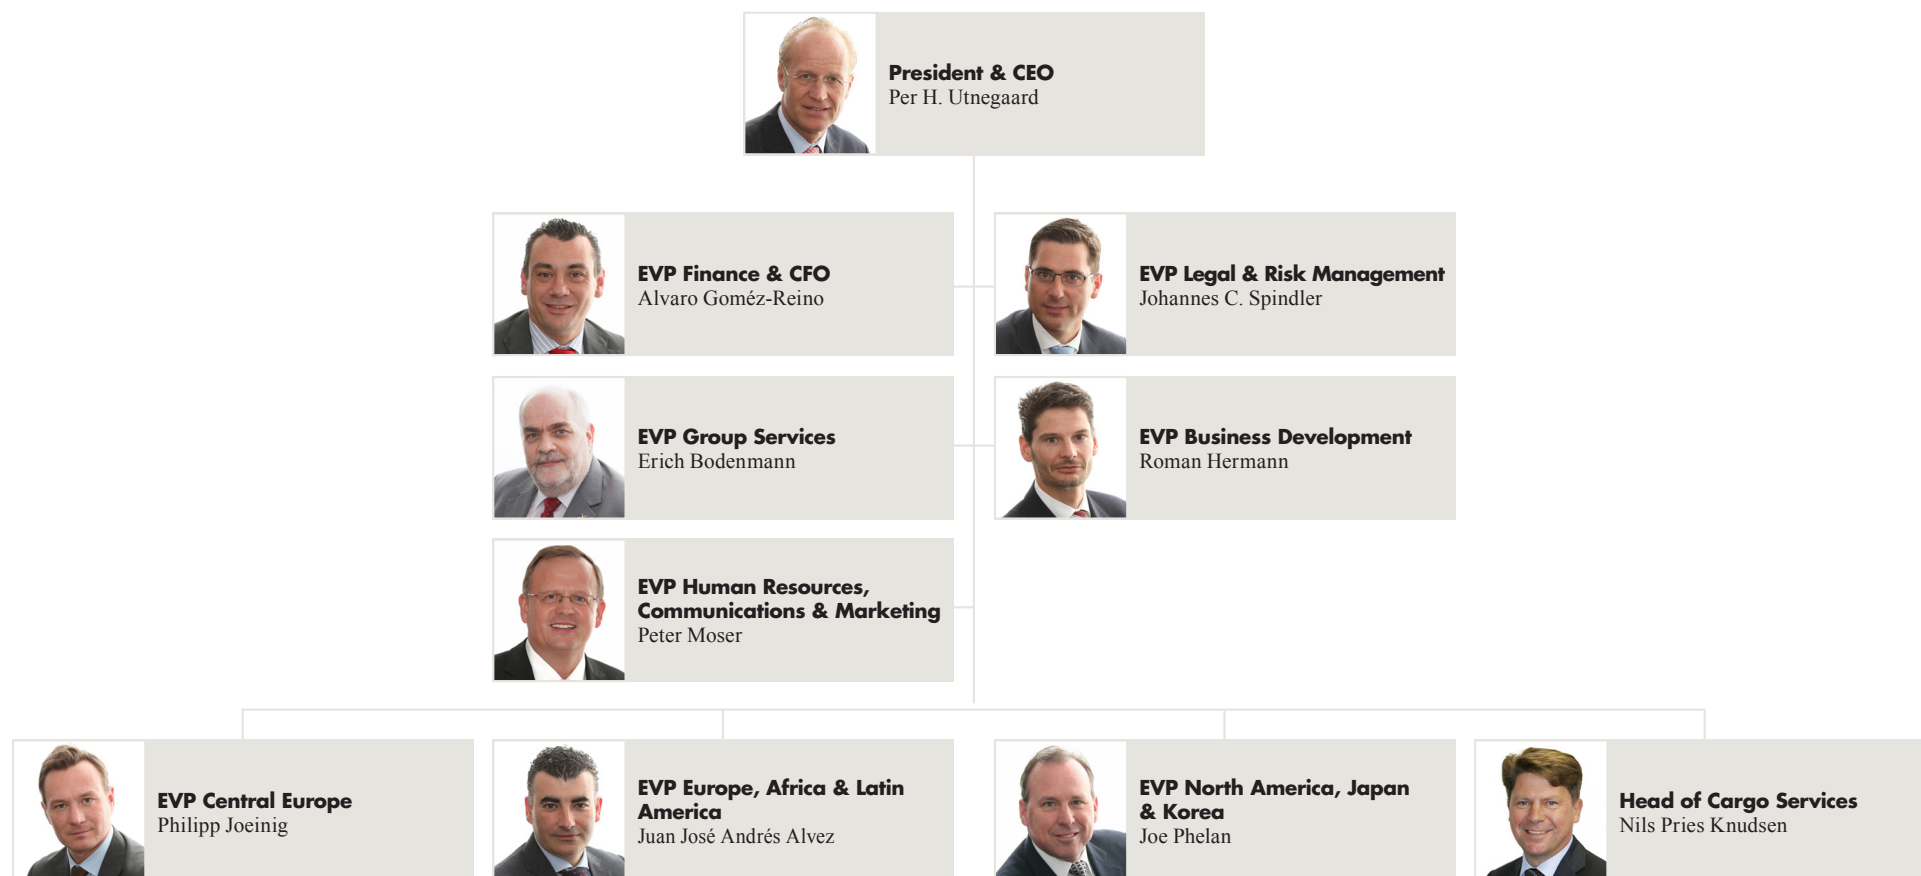

At Swissport, however, we do not rest on our successes and have developed methods and tools for continuous improvement, working with our customers in a collaborative way to ensure that we always strive to be the best and offer innovative and optimal solutions to all of our customers – old and new – across all of our many and diverse operations.

This profile is designed to provide a snapshot of the Swissport world, allowing you an insight into what makes us who we are and gives us the opportunity to share a little bit of our vision with you.

With kind regards

A stylized, handwritten signature in black ink, consisting of a large 'P' and 'U' followed by a horizontal line and a small flourish.

Per H. Utnegaard
President & CEO

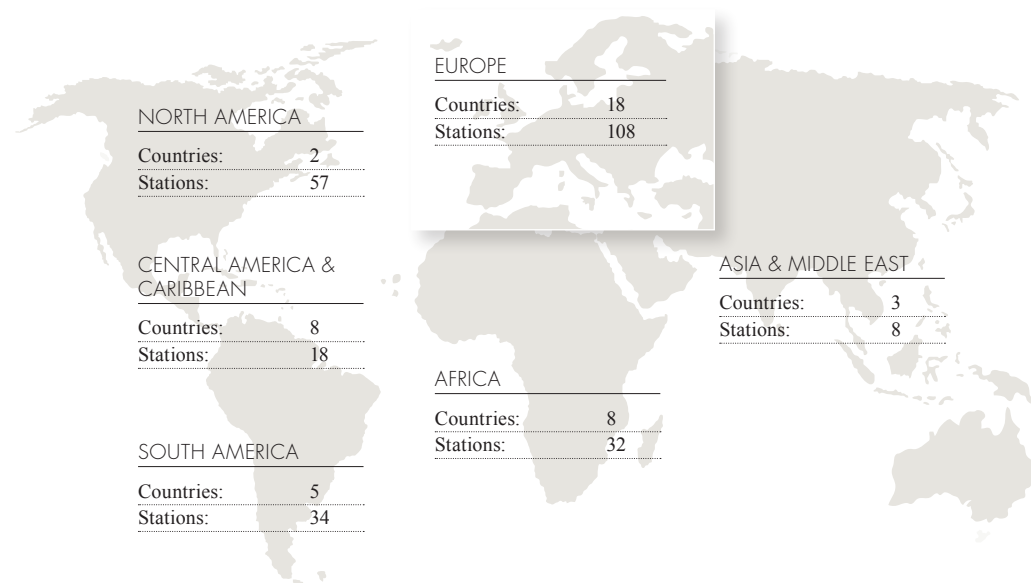

FACTS & FIGURES

Swissport International is the leading global airport and aviation service provider in terms of quality, reliability, safety, innovation and network coverage.

Offering a comprehensive range of services, Swissport is able to provide an “all-inclusive” service package in addition to managing integrated collaboration models.

MISSION STATEMENT

*To provide the aviation industry
with consistent and tailor-made
solutions around the globe,
for a better customer experience.*

In order to achieve the goal of our mission, Swissport is focused on consolidating and strengthening our market position to ensure we are constantly driving industry innovation in key areas such as service, quality and reliability.

Swissport is a people-focused organisation – without our people we simply cannot meet our goals and achieve our vision. As such, we focus on the principles of sustainability and compliance, living by the “Three Ps”:

- *People*
- *Professionalism*
- *Partnership*

The ongoing professional development of the people within the Swissport family ensures that:

- *We show respect towards our people and their values; we do not compromise on safety and work with enthusiasm and enjoyment.*
- *We are pioneers; working constantly on achieving sustainable results, we creatively explore new options and improved solutions.*
- *Continually striving to exceed the expectations of our clients and our commitments, we deliver excellent service; in any place at any time.*

HUB & BASE MANAGEMENT

A SWISSPORT
CORE COMPETENCE –
BUILDING RELATIONSHIPS
INTO PARTNERSHIPS

THE WINNING COOPERATION CONCEPT

** Provision and management of handling services at carrier's hub or base airport*

Whilst the Swissport service portfolio can begin from a single station, true partnership comes when Swissport provides the full management of our airline partner's hub or base operations. Swissport HQ assumes professional project leadership from appointment through to the operational start, providing total reassurance for our customers during transition.

Experienced field managers from our global network support the implementation on site. This solution encompasses vast commercial expertise from more than 700 customer airlines. Quality reassurance is given to our customers via the operational and leadership training of local staff and management.

Commissioning Swissport with hub operations is both financially and operationally sensible for our customers. Swissport is a company with a proven track record in best practice, quality, and industry-leading processes and procedures in addition to our commitment to continuous innovation in service provision.

Key benefits for our customers:

- **Cost** – *Reduction of handling rates and improved cost transparency with the conversion of handling costs from fixed to variable*
- **Quality** – *Improve and/or maintain quality of handling services with the implementation of the proven "Swissport Formula"*
- **Best Practice** – *Benefit from our experience at 255 airports*
- **Focus** – *The Hub & Base concept allows the airline to focus on their core business*
- **Partnership** – *Provides the full benefit of collaborating with Swissport as a strategic partner*
- **Expertise** – *Vast hub and base management experience in 18 stations around the globe*

MAJOR FUELLING

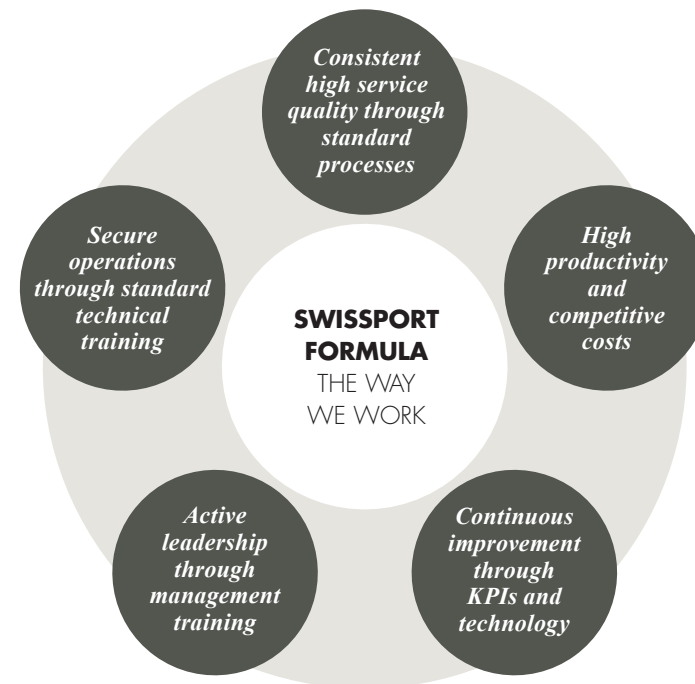

THE SWISSPORT FORMULA IS A PROVEN MODEL OF STANDARDISING MANAGERIAL AND OPERATIONAL PROCESSES

This enables Swissport to deliver the highest service quality for our customers and to apply the same proven standards in all our Ground Handling and Cargo operations all over the world. The Swissport Formula has been derived from the best practices not only from our operation, but also from comparative industries. It ensures pro-active management at all operational levels and is focused on a KPI-driven performance culture, optimised resource utilisation, technical and managerial training and efficient operational processes. This approach enables continuous improvement in the stations through a change of mind-set and behaviour.

The Swissport Formula aims to change the company culture from a local understanding of the “Swissport way of doing things” to a global approach. The tried and trusted procedures are reinforced with the Swissport core values.

SWISSPORT FORMULA BENEFITS

Efficient and secure operations form a sustainable basis for development and provide customer confidence and peace of mind, in addition to reducing costs.

With the Swissport Formula, customers and employees experience the benefits of global alignment, standardisation and consistency every day.

GROUND HANDLING

De-icing

All operational parameters are measured on a daily basis and clearly defined KPIs guarantee consistent performance standards across the entire network.

The award-winning Swissport Ground Handling business currently provides passenger and ramp handling at over 192 stations worldwide and serves in excess of 224 million passengers per annum. Today, Swissport is recognised as the biggest independent global ground services provider with the largest number of hub and LCC base operations globally.

INNOVATION

Swissport has the advantage of being able to exchange expertise and share best practice from all over the world – the benefit of which is seen in the Swissport Formula. Due to our global presence, operational practices and service innovations are being developed and implemented on an on-going basis.

Process and service optimisation through the use of information technology has been crucial to the success of Swissport. Our vast reach and network enables rapid adoption of the latest technologies that deliver efficiency and cost-effective operations on site. Using the benefit of both our experience and proprietary software for resource optimisation enables Swissport to develop rapid turnaround times without sacrificing quality of service.

Processes are documented and described in detailed operations manuals to ensure safe handling according to IATA standards (ISAGO / IGOM).

Our aim is to serve our airline customers in the most effective way whilst also being cognisant of individual needs and requirements of each of our customers.

OUTLOOK

Swissport is monitoring the development in automation in the area of ground service provision very closely. We constantly strive to reduce our production costs with the early integration of newly created features within our scope of activities.

The automation process is already quite developed in the area of passenger handling, including:

- *Fully automated passenger handling at check-in*
- *Automated boarding processes*

Swissport is also supporting working groups with our know-how in order to advance this same kind of automation in other areas as well, such as:

- *Self-service devices at Lost & Found counters (already in place)*
- *Checked-baggage screening*
- *Central load control*

Our well-established operational monitoring tools allow us to test every change in procedure and verify the impact of any deviation to the running process.

Swissport is an organisation actively shaping the future for the benefit of our customers.

By leveraging our Global Account Management Team and sharing our knowledge and expertise, we are able to support growth for all Swissport Cargo customers.

Swissport is the world's leading Cargo Services provider, offering award-winning Cargo Handling at more than 109 airports worldwide, and handling in excess of 4.1 million tonnes annually. The cargo organisation is set up to allow global, regional and local representation at both sales and operational levels through its Customer Relationship Management (CRM) process, designed to improve the customer experience. Swissport Cargo is in the process of rolling out new technologies to improve the operational capabilities and allow the customer to experience cost savings throughout the contract period and have linked this process to Cargo 2000 (C2K) measurements across our network.

Our size and scope allows Customers to manage multiple operations through a single point of contact, one common Service Level Agreement (SLA), and one invoice if necessary, saving administration costs.

INNOVATION

With daily monitoring of the key drivers of the business and tracking of the shipments in line with Cargo 2000 (C2K) standards, we have a transparent overview of our services that ensures service quality and enforces operational excellence. Implementation of hand-held terminals reduces human error and ensures an efficient operation, which allows customers to also benefit from reduced handling and cost. Daily follow-ups on hours worked, volumes handled, door waiting times and many other measures ensure a scorecard approach to the daily activity to further support the Cargo operations and help deliver efficient operations.

Swissport will continue to improve technology and interfaces for its customers and has many new and exciting advancements in production to minimise cost and improve operational readiness. We are also committed to improving the look and feel of our facilities as well as grow and develop new operations worldwide.

Some benefits of this approach to innovation include:

- **Cargospot:** *The system used to manage our Cargo business, interfacing with any airline system.*
- **Freightfinder:** *Using the latest technology, Freightfinder allows you to track and trace your freight in any of our warehouses worldwide.*
- **Hand-Held Terminals:** *Swissport's customers benefit from real-time status updates so shipments can be tracked and traced in our warehouses.*
- **SHIELD Document Imaging System:** *Capturing the entire flight pouch digitally solves the problem of missing documents.*

OUTLOOK

The continued drive to grow with our customers and to ensure that we continue to deliver the highest quality handling in the most cost-efficient way is our prime focus in 2014. By leveraging the use of system-management and implementing innovative, solid operational and financial processes together with our customers, we will continue to enhance our prime position in cargo handling services. Our Global Account Management Team allows customers to benefit from full access to Swissport's specialist resources, including the latest industry information and cutting-edge operating solutions designed to optimise the efficiency of customers' handling processes. This specialised team provides our customers with peace of mind and an established confidential relationship to explore and develop new opportunities and strategies. This single point of contact allows quality consistency, open communication and increased transparency in the handling process. We tailor operations to the needs of our customers and create a suite of reports based on their information requirements both at operational and sales levels.

Swissport Fuelling Services is an international company that provides high quality, independent aviation fuel handling on behalf of airlines, airports and fuel suppliers. We provide a full service solution in regard to our clients' fuelling needs including both on and off airport fuel storage and distribution systems.

Swissport Fuelling Services has a proven track record in demonstrating a full understanding of the requirements and responsibilities in maintaining aviation fuel systems, with a focus on safety, cost control, inventory management and a clear emphasis on environmental compliance and responsibility.

Swissport Fuelling Services provides our customers with safe, efficient, independent into-plane fuelling services whilst leading the industry in on-time performance. Our expertise and knowledge in this specialist field also assists our clients in the design, construction and commissioning of aviation fuelling facilities and related structures.

Swissport Fuelling Services operates to the highest industry standards on Health, Safety and Environment. Our policies and procedures have been developed in accordance with the Air Transport Association (ATA) 103 Specification and the Joint Inspection Group (JIG) Guidelines for Aviation Fuel Quality Control & Operating Procedures.

AIRCRAFT MAINTENANCE

Swissport Aircraft Maintenance, the recipient of the prestigious FAA Certificate of Excellence Diamond Award, is a quality provider of third-party line maintenance services operating at 27 airports in the USA and in four other countries globally, providing line maintenance support to major commercial airlines on both a scheduled and on-call basis, ensuring all capital-intensive equipment operates and performs flawlessly. Swissport's A&P Mechanics have the training, knowledge and expertise to meet your company's demands.

GROUND SUPPORT EQUIPMENT (GSE) MAINTENANCE

Swissport GSE and ULD Maintenance Services operates at over 45 airports in 13 countries, managing and maintaining a fleet of more than 4,000 units. Our commitment is to offer superior and consistent standards and dedication throughout our network, providing reliable, comprehensive, cost-effective GSE maintenance, minimising downtime and maximising productivity. Swissport Maintenance Services is committed to working within the industry towards the research and development of efficient, safe, ergonomic and environmentally friendly Ground Services Equipment.
