2 Operating EBITDA (pre-IFRS 16), as defined in our audited Financial Statements
At Swissport, we are committed to sustainable value creation. We want to further strengthen our leadership in our core markets and expand in emerging markets.

In our core markets we focus on **organic growth**, complemented by **selective acquisitions**, like German Apron Cargo and Australian Aerocare in 2018. With Melbourne lined up as our first cargo hub in Australia, and our first Aspire Airport Lounge to open in Perth, we leverage on the strong market position of former Aerocare as a platform for growth in Asia-Pacific.

Significant growth can also be realized when airlines **outsource** an entire hub, like Finnair in Helsinki, Swiss in Zurich or United Airlines at Dulles and in Denver.

So-called **“greenfield developments”** like Saudi Arabia and Oman, are our fourth lever of growth.
FULL RANGE OF MISSION-CRITICAL SERVICES

Next to our presence at 300 airports around the globe, the industry’s most complete service portfolio is one of Swissport’s key competitive advantages.

AIRPORT GROUND SERVICES
Swissport generates roughly 80% of its revenue in airport ground services, including passenger services and ramp handling. Our complete service portfolio affords us significant cost and service advantages.

AIR CARGO HANDLING
Our air cargo business accounts for some 20% of our revenue. At our 115 warehouses we handle everything from general cargo to special cargo shipments.
Our airline clients can select any combination of services, ranging from a specific service to a full hub outsourcing of passenger and ramp services. In 2019, our Swissport customer service agents served some 265 million airline passengers, which equals roughly 8 airline passengers per second.

QUALITY, HEALTH AND SAFETY

SAFE AND INDUSTRY LEADING OPERATIONS

At 300 airports worldwide our 64,000 Swissport employees strive to fulfill the highest client expectations in terms of service quality and efficiency. Above all stands our commitment to an unconditional safety-first culture.

ALIGNMENT WITH INDUSTRY STANDARDS

To support our safety initiative, we merged quality and safety into an integrated system and aligned it with the ISO 9001:2015, ISAGO and IGOM industry standards.

Between 2015 and 2019 we were able to reduce both the number of work-related injuries and damages to equipment.
CORPORATE SUSTAINABILITY

CONTRIBUTING AS A RESPONSIBLE BUSINESS

As a signatory to the UN Global Compact (2011), Swissport is committed to environmental care, the protection of human rights, compliance with labour standards and the fight against bribery and corruption.

EMPLOYEES AND EQUAL OPPORTUNITY

We promote a working environment, which enables our employees to reach their potential. We believe in respect for diversity and support equal opportunity.

THE ENVIRONMENT

In line with our Environmental Guideline (est. 2007), we continuously work to reduce our carbon footprint. By 2025, Swissport aims to increase the share of electric vehicles in its fleet to at least 50%.
Virtual reality helps to visualize and handle items in a virtual environment enabling employees to explore several operational scenarios.

Through virtual reality dangerous situations and the impact of changing conditions in the environment (e.g. weather) can be practiced.

The delay prediction tool enhances efficiency on the ground by detecting resource constraints before an aircraft is airborne.

The ability to react earlier makes the service chain more reliable for Swissport customers.

With each flight the algorithm learns for future calculations and becomes more precise.

Swissport is introducing newly developed self-services kiosks at its cargo warehouses.

Truck drivers register at the kiosk, scan relevant documentation and then receive information on where to unload their cargo.

The digital innovation reduces waiting times and increases the quality of the air freight documentation.
Our portfolio of around 850 customers in 47 countries on six continents ranges from multi-national airlines to low-cost carriers, regional carriers, airports and freight forwarders.
