

MEDIA RELEASE

INTRODUCTION OF ONLINE BOOKING TO SPEED UP SERVICE AT THE TEST CENTER IN TERMINAL 2 AT ZURICH AIRPORT

As of May 17th, the Test Center in Terminal 2 offers online booking and a "fast track" option. In the run-up to the summer holidays, family-friendly pricing was also introduced to offer the best option for everyone.

Due to the ongoing high demand for tests to travel, an online booking function for the test center in Terminal 2, Level 1 will be introduced on May 17th. Customers can book a test on the new online platform conveniently from home, on the go, or even while in the waiting area. Posters in front of the test center provide information and a QR code to make sure everyone who wishes to can book online.

Using online booking should significantly reduce waiting time. Additionally, our a new "Fast Track" service further cuts waiting time significantly for travelers in a hurry. However, online registration remains a voluntary option; on-site registration will still be possible.

The pricing scheme introduced on May 17th, 2021 provides significant value for all travelers, especially families. Children accompanied by an adult will now pay CHF 60.00 for a rapid antigen test and CHF 99.00 for PCR tests. For travelers in a hurry, there is now also "fast track" option with significantly shorter waiting times.

Adjusted prices

Antigen Rapid Tests	PCR Test
Results in 15 to 20 minutes	Results in 5 to 8 hours
Adults: CHF 80.00	Adults: CHF 149.00
Children under 18 years: CHF 60.00	"Fast Track" Premium: CHF 195.00
	Children under 18 years: CHF 99.00

Checkpoint, a subsidiary of the Swissport Group cooperates with ender diagnostics ag and offers their PCR saliva tests to passengers in Terminal 2 at Zurich Airport. Travelers can thus obtain an internationally recognized test result.

Over 55,000 travelers have been tested since the test center opened in January 2021. Reliable results are available within 5 hours with the PCR saliva tests. Since the beginning of March 2021, antigen tests have also been offered, which show a result within 15 to 30 minutes. The tests are analyzed in a laboratory specially developed for this purpose by ender diagnostics ag. This enables a particularly rapid evaluation. The test results are sent to the passengers by e-mail and comply with the international Covid 19 travel regulations. Due to the high demand the opening hours of the test center in Terminal 2 have been extended since May 1st, 2021. It is now open daily from 04.00 to 22.00.

Zurich, May 17th, 2021

ender diagnostics ag has its company headquarter in Berne, Switzerland and a US subsidiary in Miami, Florida. The company focuses on the development of rapid molecular tests for the screening and detection of SARS-CoV-2. Ender Diagnostics' teams have extensive experience in the development of rapid molecular tests for infectious diseases.

In 2020, Swissport International AG provided best-in-class airport ground services for some 82 million airline passengers (pre-Covid 2019: 265 million) and handled roughly 4.1 million tons of air freight (2019: 4.6 million) at over 100 cargo warehouses worldwide. Several of its warehouses have been certified for pharmaceutical logistics by IATA's CEIV Pharma and by the British MHRA. The world's leader in airport ground services and air cargo handling, with currently around 45,000 employees, was active at 269 airports in 47 countries on six continents at the end of 2020.
